

# Housing Association ToolKit

Cadcorp's Housing Association ToolKit provides a number of productivity tools that streamline the processes of map production typically carried out by Housing Associations who use the Cadcorp SIS® – Spatial Information System® ("Cadcorp SIS") product suite.

Cadcorp SIS is an integrated and complete family of desktop, web, developer and mobile GIS products.

With a common GIS engine at the core, all Cadcorp SIS products work in the same way, sharing functionality and benefiting from the following:

- Read and/or write over 150 data formats 'out-of-the-box' without translation
- Require no middleware to access databases
- Contain OGC compliant interfaces throughout
- Are fully interoperable
- Offer significant ease of use
- Are easy to customise using standard development tools
- Are proven in implementations worldwide

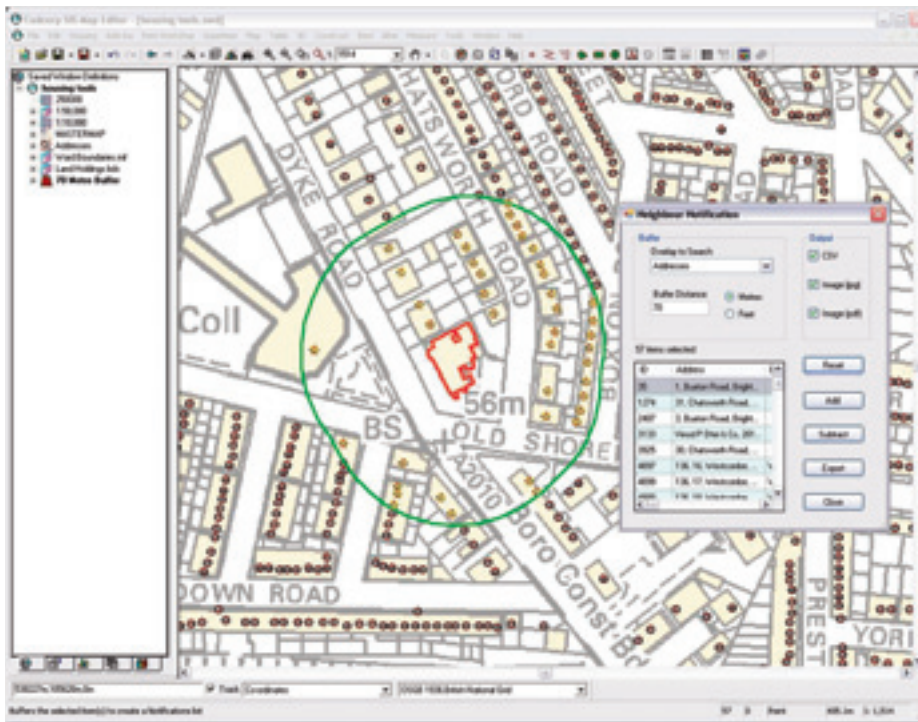

## Auto-Outline Tool

- Capture a property boundary with just one click
- Automatically enter a red line within the border (as required by the Land Register)
- Quickly and easily enter property attributes

## T Mark Tool

- Effortlessly add "T" marks to show ownership of a boundary

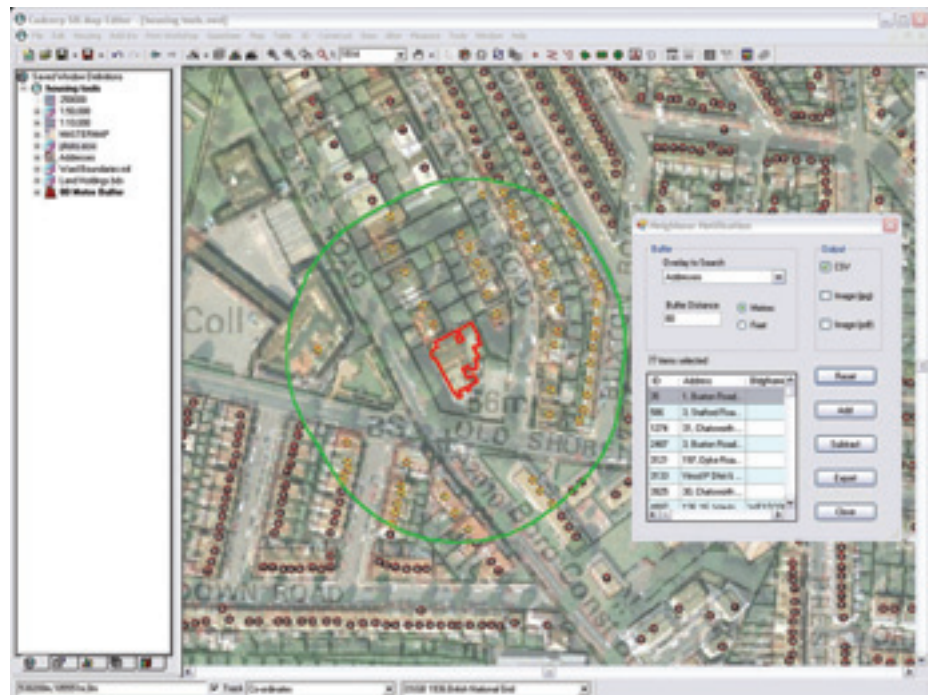

## Neighbours Tool

- Easily find and select properties within a defined distance
- Export information for faster mailings
- Distribute automatically generated .jpg or .PDF map of selected areas

## Dimension Tool

- Place a dimension line between any two positions with the distance option
- Display dimensions of many properties or features which are in a straight line
- Full control over all measurement units
